Pay responsibly

Splitit guarantees your purchase, by placing a hold on your credit card, while the total amount is outstanding. This is not a payment, it's just a pre-authorization that allows you to pay off your balance over time, before accruing any interest. Just pay as you go and Splitit will re-authorize the hold and reduce the amount each month.

* Splitit will not charge you interest or fees. Other charges may apply from your credit card issuer. Credit card T&Cs apply
